About Multi Metal Indonesia

Multi Metal Indonesia is a leading exporter of high-quality carbon steel and stainless steel products from Indonesia. With a strong commitment to excellence, we specialize in supplying Hot Rolled Coil (HRC), Cold Rolled Coil (CRC), Hot Rolled Plate, and Cold Rolled Sheet, available in both carbon steel and stainless steel variants, to meet diverse industrial needs in the global market.

Our products are manufactured in accordance with international standards, ensuring consistent performance, competitive pricing, and reliable quality tailored to our customers' specific requirements. At Multi Metal Indonesia, we are proud to connect Indonesia's rich metal resources with the demands of the global industry. Through our extensive network and strong partnerships with trusted manufacturers, we deliver efficient, sustainable, and dependable steel solutions to clients worldwide.

Vision

To be the preferred supplier of Indonesian metal products for global customers, setting the standard for quality, reliability, and customer satisfaction.

Mission

- To supply premium-quality metal products that align with international standards and customer requirements.
- To expand our global market presence through strategic partnerships and a strong supply chain network.
- To uphold ethical business practices and ensure sustainability in every aspect of our operations.
- To foster long-term customer relationships by delivering value-driven solutions with exceptional service.
- To invest in innovation and workforce development, ensuring continued excellence in the metal industry.

Corporate Values

Customer Focus

We prioritize understanding our customers' needs by providing tailor-made solutions that enhance their business operations.

Integrity & Transparency

We ensure clear communication, fair pricing, and trustworthiness in all our dealings..

Integrity & Transparency

We embrace innovation, efficiency, and technological advancements to consistently improve our products, processes, and services.

Galvanized Steel

We supply high-quality galvanized steel featuring superior zinc coating performance and bendability, capable of achieving zero-gap tolerance at full thickness without cracking or peeling. This premium quality makes it highly suitable for industrial applications, particularly in the automotive and construction sectors. Our galvanized steel is commonly used for components such as oil and air filters, car body parts, steel frameworks, ducting systems, and floordecks.

We also offer color-coated products finished with polyester, polyurethane, and polyvinylidene difluoride (PVDF), which are ideal for tropical climates and extreme weather conditions. These coatings provide long-lasting durability and are available in a wide range of color options to meet both functional and aesthetic requirements.

Hot-dip Galvanized Steel Product

This product is suitable for a wide range of applications, including construction materials, piping, electronics, furniture, and components coated with molten zinc on hot-rolled or cold-rolled steel.

Standard	Specification & Grade	Application	Forms Available
SNI 2053	BJLS 340, BJLS 400, BJLS 570, BJLSK, BJLSL	General Use, Structural Quality	Cold rolled coil, Sheet
POSCO	CGC35, CGC41, CGC45, CGC50, CGCC, CGCD, CGCE, CGCF, CGCH35, CGCH45, CGCH50, CGCH60, CGCN	Drawing, Deep Drawing, General Use, High Strength Steel, Lock Forming, Structural Quality	Cold rolled coil, Sheet
POSCO	CGH35, CGH41, CGH45, CGH50, CGH55, CGHC, CGHD	Drawing, General Use, Structural Quality	Hot rolled coil, Plate

The current specifications in terms of chemical composition, mechanical properties, dimension, weight, and form may require further discussion.

Product Details (Hot Rolled)	
Coil Thickness	1.05mm - 4mm
Coil Width	800mm - 1600mm
Pallet Thickness	0.2mm - 1.2mm
Pallet Width	762mm - 1219mm
Pallet Length	1829mm - 3658mm

Product Details (Cold Rolled)	
Coil Thickness	0.3mm - 2mm
Coil Width	600mm - 1800mm
Sheet Thickness	0.2mm - 1.2mm
Sheet Width	762mm - 1219mm
Sheet Length	1829mm - 3658mm

Color Coated Product

We provide premium color-coated steel products finished with polyester, polyurethane, and polyvinylidene difluoride (PVDF) coatings. Engineered for superior durability and weather resistance, these coatings are especially suitable for tropical climates and harsh environmental conditions.

Available colors include: a variety of shades such as deep red, charcoal, light grey, white, bright red, maroon, navy blue, steel blue, sky blue, moss green, forest green, olive, emerald green, earthy browns, beige, taupe, silver, and other neutral tones—carefully curated to meet both design and performance requirements.
