About Multi Metal Indonesia

Multi Metal Indonesia is a leading exporter of high-quality carbon steel and stainless steel products from Indonesia. With a strong commitment to excellence, we specialize in supplying Hot Rolled Coil (HRC), Cold Rolled Coil (CRC), Hot Rolled Plate, and Cold Rolled Sheet, available in both carbon steel and stainless steel variants, Galvanized Steel & Galvalume Steel to meet diverse industrial needs in the global market.

In addition to our product range, we also provide Steel Casting Services, delivering customized casting solutions that meet precise engineering and industrial requirements.

Our products are manufactured in accordance with international standards, ensuring consistent performance, competitive pricing, and reliable quality tailored to our customers' specific requirements. At Multi Metal Indonesia, we are proud to connect Indonesia's rich metal resources with the demands of the global industry. Through our extensive network and strong partnerships with trusted manufacturers, we deliver efficient, sustainable, and dependable steel solutions to clients worldwide.

Vision

To be the preferred supplier of Indonesian metal products for global customers, setting the standard for quality, reliability, and customer satisfaction.

Mission

- To supply premium-quality metal products that align with international standards and customer requirements.
- To expand our global market presence through strategic partnerships and a strong supply chain network.
- To uphold ethical business practices and ensure sustainability in every aspect of our operations.
- To foster long-term customer relationships by delivering value-driven solutions with exceptional service.
- To invest in innovation and workforce development, ensuring continued excellence in the metal industry.

Corporate Values

Customer Focus

We prioritize understanding our customers' needs by providing tailor-made solutions that enhance their business operations.

Integrity & Transparency

We ensure clear communication, fair pricing, and trustworthiness in all our dealings..

Continuous Development

We embrace innovation, efficiency, and technological advancements to consistently improve our products, processes, and services.

Steel Casting

Multimetal Indonesia Steel Casting Services is a company that provides metal casting services for Original Equipment Manufacturers (OEMs) as well as businesses of various sizes. We focus on delivering high-quality metal casting solutions, particularly for industrial applications that require strong technical standards. This focus is driven by our core commitments to technical expertise, reliability, and quality assurance—ensuring every product we deliver meets both customer expectations and international standards.

Product Specialization

We specialize in a wide range of casting products, including:

- **High Abrasion Resistance Materials** (Designed for extreme working conditions with high wear levels, suitable for heavy-duty industries.)
- **Mining Industry Components** (Providing essential components used in mining operations.)
- **Heavy Industry Parts** (Metal components for machinery and industrial systems with high workload demands.)

Resources & Facilities

- **Pattern** (Pattern making capabilities using various materials: Wood, Epoxy, Aluminum)
- **Moulding** (Utilizing methods such as: Furan Sand, CO2 Mix Sand Moulding)
- **Melting** (Melting process using medium to high-frequency furnaces with temperatures up to 1750°C)
- **Fettling** (Finishing processes include: Grinding, Welding, Polishing, And other related processes)
- **Heat Treatment** (Available upon request to meet specific mechanical property requirements.)
- **Quality Control Process** (Compliant with international standards: Japanese Industrial Standards (JIS), ASTM Standards)
